New appointment system for vaccination against coronavirus

Since the beginning of the coronavirus vaccination campaign, the Department of Health has been calling people by phone and according to the population and professional groups mentioned in the Navarre Vaccination Strategy.

However, from this month of April, and in anticipation that a greater possibility of coverage may require a greater capacity for appointments, part of the population will be called to be vaccinated by SMS message.

1 What to do if I get an SMS?
The message will offer me two options to make an appointment:
- ONLINE: The link carpetadesalud.navarra.es will be provided.
- BY PHONE: A number to call will be provided.

2 If I choose to request the appointment online...
Please, I must have the CIPRES or Personal Number of the health card or TIN and add my DNI or NIE.
It is a very simple procedure.

3 What is the time limit?
From the moment I get the SMS, I have 72 hours to make an appointment, either by phone or online.
If after that period I have not requested an appointment, the Department of Health will contact me by phone to make a personal appointment.

Citizen cooperation is essential for the Navarre Vaccination Strategy to be a collective success. Thank you!
